Place St. François 12
Lausanne, SwitzerlandMr. Sidky Soliman
Minister of High Dam
Asswan, U.A.R.

October 24, 1963

Dear Mr. Minister:

On October 13th, Mrs. Lamberson and I were taken to see the High Dam at Asswan by A. Talaat of the High Dam Construction Authority.

While I am certain that you are already aware that the engineering and construction work on the dam is one of the most fascinating and exciting projects of our age, we did want you to know that the pleasure of our trip was greatly enhanced by the training, courtesy and efficiency of your staff. I have rarely seen such a well organized tour -- even when traveling as an official visitor.

I would also like to commend to your attention Colonel Kamal El Habrouk whom we had the pleasure of meeting at the site and several times later during our stay in Asswan.

The splendid Public Relations job that your staff is doing cannot help but materially contribute to the growing world-wide admiration and interest in the UAR development program.

Sincerely yours,

for Ralph Lamberson / N. Courdon
